Instructions for Trademark and Service Mark Application

This form should be used by any person who adopts and uses a trademark or service mark in Ohio.

Applicant Information

Please provide the name of the applicant. If the applicant is a corporation, partnership, limited partnership, or limited liability company, please provide the jurisdiction of formation which would either be Ohio or another state or jurisdiction. Also, if the applicant is a partnership or limited partnership, please provide the names of all general partners.

Please provide the business address of the applicant. This address can be in Ohio or outside of Ohio.

Description of the Mark

Please provide a written description of the mark - the language used on the application will be entered exactly as written into the database in the secretary of state's office. Also, please describe the goods or services on or in connection with which the mark is used. For example, if the applicant is a clothing manufacturer then the goods used in connection with the mark will be "clothes." Then provide the class in which the goods or services fall. To locate the appropriate class, please look at the list provided on pages 4, 5 and 6 of the form. In the example provided above, the appropriate class would be 25 for "Clothing, footwear, headgear." Finally, please provide the mode or manner in which the mark is used on or in connection with the goods or services. For example, the mark might be used in advertisements and letterhead in connection with the applicant's clothing business.

Date of First Use

Please provide the date when the mark was first used by the applicant (or predecessor) in any location and the date when it was first used in Ohio by the applicant (or predecessor). Note: the mark must be in use prior to filing the application; therefore, this date must be on the date of filing or prior to the date of filing.

Statements regarding Use of the Mark

By submitting this form, the applicant agrees to the statements provided on page 2 of the form and also selects the appropriate box to indicate whether the applicant is or is not the owner of a concurrent registration in the United States Patent and Trademark Office.

Specimen

The form must be accompanied by a specimen of the mark as actually used. In the example above, an appropriate specimen would be a copy of the letterhead showing the mark in use which advertises the clothing company. Our office will accept originals, photocopies and a copy of a photograph. So long as the specimen shows our office how the mark is used (i.e., how it appears on the sign, letterhead, menu, etc.), it is adequate. Please do not submit actual items (a menu, a shirt, a hat, etc.) bearing the mark.

Signature

Section 1329.56 of the Revised Code requires the application to be signed by the applicant, an authorized representative, or by an officer of the firm, limited liability company, limited liability partnership, general partnership, or limited partnership, corporation, union, association, or other organization that is the applicant.

Classification of Goods and Services for the Registration of Trademarks and Service Marks

Trademarks are registered if you are protecting a mark related to a good (a physical item purchased from you or your company) (classes 1 – 34) and service marks are registered if you are protecting a mark related to a service you or your company provides (classes 35 – 45). For example, if your company makes and sells tee shirts you should register a trademark and select class 25 for clothing. However, if your company is a printing service and people bring shirts to you and you custom print them, then your company is providing a service and should likely select class 40. There may be situations in which you need to register the same mark under multiple classes, and if this is the case then this must be done on a separate filing form for each class. Also, it is important to note that your mark may only be protected in the class listed on the form as it might not conflict with a similar mark if the similar mark is used in another class. You might not find a class that specifically states your good or service, but please choose the closest to your good/service.
