

Election  
Tuesday,

Polling Hours:  
6:30 a.m. to 7:30 p.m.

## How To Vote Using ES&S iVotronic

### Marking A Regular Ballot And Casting Your Vote

- An election official will activate your ballot by inserting a Personal Electronic Ballot (PEB) into the slot on your left.
- When ready to begin voting, press the “View Ballot” prompt at the bottom of the instruction screen.
- Next, touch the candidate or issue for which you intend to cast a vote. Your selections will be highlighted in bold, and a green check mark will appear. You may change your selections at any time.
- Once you have completed voting on a page, press the “Next” button at the bottom of the screen to proceed. At any time you may touch the “Back” button to return to a previous page.
- To cast a vote for an eligible write-in candidate, touch the “Write-in” option, and a keyboard will appear on the screen. Type in the name of a candidate and press “Accept.” Your selection will appear on the screen. Continue making and changing selections until you complete the ballot.
- After you have completed the last page of your ballot, press the “Review” button. Carefully review all of your selections.
- To change a selection, touch the box next to the candidate or issue and re-select the proper choice. Then, press the “Review” button again to return to the summary screen.
- After you are satisfied with your selections, press the flashing red “VOTE” button, or the large green check mark at the top of the screen. You will be asked to confirm your ballot one last time.
- A “Thank You For Voting” message will now appear. This means that you have properly cast your ballot.
- Once your ballot is cast, the Real-Time Audit Log will scroll upward so none of your activity will be visible to the next voter.
  - The Real-Time Audit Log is a voter verifiable paper audit trail located on the left-hand side of the voting system. The printer will display every selection you make as you go through the ballot.

### Accessible Voting For Individuals With Disabilities

- An election official will activate your ballot by inserting a Personal Electronic Ballot (PEB) into the slot on your left.
- Place the headset on and press the diamond shaped button to select the AUDIO Ballot.
- The screen will prompt the election official to remove the PEB, and the screen will display AUDIO ASSISTED BALLOT IS SELECTED.
- The iVotronic will begin to play the audio voting instructions. You may press the diamond button to skip to the end of the instructions message.
- After the instructions are given, you will have the opportunity to listen to the instruction again by pressing the up scroll button or you can begin to make ballot selections by pressing the diamond shaped button.
- For each office or issue, the terminal will give you prompts.
- Press the diamond shaped button to vote for the office or issue; or the down scroll arrow to move to select the next office or issue.
- When you select an office or issue, the terminal will provide a vocal cue informing you which office or issue is highlighted and the response position.
- Press the down scroll arrow to advance to the next response or press the diamond shaped button to select the current response. Press the diamond shaped button again to cancel the selection or press one of the scroll arrows to continue moving through the ballot.
- You can enter the name of an eligible write-in candidate by scrolling through letters from the audible alphabet and by selecting the appropriate letters using the diamond shaped button.
- When you reach the end of the ballot, the iVotronic prompts you to press the “VOTE” button to cast the ballot. Press the up scroll arrow to return to voting or the “VOTE” button to cast the ballot. When the “VOTE” button is pressed a message asks you to confirm that you wish to cast the ballot by pressing the “VOTE” button again.
- An audible cue will thank you for voting after your ballot has been cast.

**NOTE:** When scrolling through offices, candidates or issues, it is not necessary to wait for the entire voice file to play before proceeding. You may press the up or down arrow buttons several times to “SKIP AHEAD” to get the desired question or issue.
