NATIONAL VOTER REGISTRATION ACT OF 1993

The National Voter Registration Act of 1993 (NVRA), Pub. L. 103-31, May 20, 1993, 107 Stat. 77, 52 U.S.C.A. §20501 — commonly referred to as the “motor voter law”— became effective on January 1, 1995. One purpose of this Act was to establish procedures to increase the number of eligible citizens who register to vote by mandating that voter registration opportunities be provided at certain designated agencies and other public sites designated by the Secretary of State.
Following NVRA’s passage, the Ohio General Assembly incorporated the requirements of the federal law into Ohio law. Ohio’s laws governing voter registration have been amended occasionally since then. Currently, state law requires the following offices and other public entities to provide, in each of its offices or locations, voter registration applications and assistance in the registration of qualified persons, in accordance with R.C. Chapter 3503:

- All Bureau of Motor Vehicle locations, in accordance with R.C. 3503.11.
- All designated agencies, in accordance with R.C. 3503.10. “Designated agency” is defined in R.C. 3501.01(X) to mean “an office or agency in the state that provides public assistance or that provides state-funded programs primarily engaged in providing services to persons with disabilities and that is required by the National Voter Registration Act of 1993 to implement a program designed and administered by the Secretary of State for registering voters, or any other public or government office or agency that implements a program designed and administered by the Secretary of State for registering voters, including the department of job and family services, the program administered under section 3701.132 of the Revised Code by the department of health, the department of mental health, the department of developmental disabilities, the rehabilitation services commission, and any other agency the Secretary of State designates.”
  - Included in this definition of “designated agency” is each office of a state assisted college or university that provides assistance to disabled students; the Women, Infants, and Children (WIC) program of the Ohio Department of Health; the Ohio Department of Mental Health; the Ohio Department of Developmental Disabilities; Opportunities for Ohioans With Disabilities; and the Ohio Department of Job & Family Services.
- All public libraries, county treasurer offices, and public high schools and vocational schools (which R.C. 3501.01(X) specifically exempts from the definition of “designated agency”), in accordance with R.C. 3503.10.
Voter registration services also are available to qualified individuals using the services of a United States Armed Forces recruitment office.

**BMV ADMINISTRATOR**

The BMV’s administrator for deputy registrar services is responsible for overseeing all voter registration activities for the BMV. The administrator has the following duties:

- **Liaison.** The administrator serves as the liaison between the BMV and the Secretary of State.

- **Training.** The administrator, in cooperation with the office of the Secretary of State, must develop a training program and provide training materials for deputy registrars and their employees.

- **Reporting.** According to R.C. 4503.03(J), each deputy registrar shall file a report semi-annually with the registrar of motor vehicles listing the number of applicants for licenses the deputy has served, the number of voter registration applications the deputy has completed and transmitted to the board of elections, and the number of voter registration applications declined.

- **Ordering supplies.** The administrator is responsible for ensuring that each deputy registrar’s office has a sufficient supply of voter registration forms, transmittal forms, posters, voter registration instructions brochures, and other necessary materials.
DEPUTY REGISTRAR’S OFFICE MANAGER

Appointment

The office manager for each deputy registrar’s office shall be designated by the deputy registrar to be in charge of, and responsible for, voter registration in that office, unless the deputy registrar designates, in writing to the BMV administrator, another individual to perform these duties.

Responsibilities

The office manager has the following duties:

- **Liaison.** The office manager serves as the liaison between the deputy registrar’s office and the board of elections in the county in which the deputy registrar’s office is located.

- **Site employee training.** Each employee at a deputy registrar’s office must be trained on the operations of the voter registration program. The office manager shall provide training to current employees and to new employees upon their arrival. The office manager is responsible for ensuring that all the office’s employees comply with the requirements of the voter registration program.

- **Ordering supplies and display of promotional materials.** The office manager must ensure the deputy registrar’s office has an adequate supply of the materials necessary to conduct the voter registration services program.

- **Reporting.** Each office manager must report to the board of elections the total number of voter registration forms transmitted from that office. This number includes the office’s computer-generated forms and any other voter registration forms (prescribed state and county voter registration forms) received at the deputy registrar’s office.
The office manager satisfies this reporting requirement by enclosing a properly completed voter registration transmittal form (Exhibit B) with the voter registration forms that are submitted to the board of elections in the county in which the deputy registrar’s agency is located. Each deputy registrar’s office must submit the voter registration forms with the properly completed transmittal form to the board of elections at least once every five (5) days.

The office manager must record (1) the number of applicants for licenses served in that office, (2) the number of voter registrations, change of address and change of name notices completed in that office by customers who apply for a driver’s license, commercial driver’s license, a State of Ohio identification card, or motorcycle operator’s license, or endorsement, renewal, or duplicate of any of these, and transmitted by the office to the board of elections, and the number of voter registration forms declined. (R.C. 4503.03(J)) These numbers shall be reported to the administrator at least semi-annually. Upon request, any additional information required by the administrator must be reported. For specific information and instructions on reporting, please see the “Handling Completed Voter Registration Forms” sub-section of this manual.

VOTER REGISTRATION CHECKLIST

A successful voter registration services program depends on creating and implementing an internal system that will run smoothly with little maintenance. The following checklist will help office managers to determine if they have established an effective program.

Checklist for Office Managers

- I am familiar with all aspects of the voter registration program developed by the Secretary of State and how the program works at the deputy registrar’s office.
- I have made arrangements with the BMV administrator for initial and ongoing training of agency personnel.
• I have established a system for program monitoring, reporting to the BMV administrator, and transmitting the completed forms to the board of elections. This is best accomplished by creating a written plan.

• I have an adequate supply of all materials that I need to operate the voter registration program.

Note: This includes voter registration forms and informational materials that may be provided to clients, as well as training materials for staff.

SUPPLIES FOR EACH REGISTRAR’S OFFICE

To implement and operate a voter registration program, each office shall have the following supplies:

• Voter registration forms:
  ○ The Secretary of State has prescribed the format of the computer-generated voter registration form to be used by all BMV offices.
  ○ Deputy Registrars also must have a supply of the standard state or county (non-computer-generated) voter registration forms. (Exhibit A)

• Transmittal forms. The transmittal form that is enclosed with this manual must be used by each office manager when submitting voter registration forms to the county board of elections. It may be reproduced by the office manager as needed. (Exhibit B)

• Voter Registration Instructions brochure. This brochure is to be given to any person who requests three (3) or more voter registration forms from a BMV office. (Exhibit C)
Procedures for Ordering Supplies

The BMV is required to supply each deputy registrar with a sufficient number of voter registration forms. The Secretary of State has given the BMV a formatted file of the voter registration form.

Each deputy registrar is required to maintain a sufficient supply of voter registration materials. Therefore, it is critical for the BMV administrator and a deputy registrar's office manager to remain in constant communication to ensure that an adequate supply of forms is maintained at all times. The BMV administrator is responsible for allocating supplies, but the office manager must be aware of the level of supplies in each deputy registrar's office and contact the administrator promptly when additional supplies are needed.

Note: A sufficient supply of forms is particularly critical during pre-election periods. The timely ordering of supplies ensures that the year-round voter registration program will run smoothly.

EMPLOYEE TRAINING

For BMV voter registration services program to be successful, all employees participating in the program must be adequately trained. In many cases, deputy registrars will be providing customers with assistance in completing voter registration forms. Training gives employees of a deputy registrar's office the skills and information needed to provide this assistance. Additionally, arrangements to train new employees and orient existing employees to new or updated program information should be included in the voter registration program.

Training shall include the following:

- A program overview and explanation of the voter registration program's goals and benefits.
- A discussion of the roles and responsibilities of employees.
- A review of all materials used in the program.
• An education on voter registration rules and regulations, including deadlines.

• A step-by-step guide to completing the voter registration form.

• A discussion of non-partisanship and how to handle questions regarding enrollment or affiliation with a political party. Employees being trained to provide voter registration services must be instructed that they are required to maintain political neutrality and to refrain from demonstrating political preference or party allegiance.

• Instructions that the decision of a customer on whether to register as an elector does not impact the decision of whether to issue the customer a license, a state identification card, an endorsement, a renewal, or a duplicate.

• Instructions that the customer should not be required to fill out any information on the BMV computer-generated voter registration form, which duplicates information on the application for a license, identification card, or endorsement.

• Instructions for program maintenance (i.e., ordering supplies, program monitoring, and reporting).

VOTER REGISTRATION PROCEDURE

Each deputy registrar employee shall:

Ask each customer who is applying for a new, renewal, duplicate or endorsement of any of these:

• Driver's license,

• Commercial driver's license,

• State of Ohio identification card,

• Motorcycle operator's license.
if the customer would like to register to vote or update a current voter registration with a change of address or name.

**If the customer wants to register to vote or update his or her current voter registration:**

- Print out the computer-generated voter registration form for the customer.
- Offer to assist the customer in filling out the additional information not automatically printed on the form by the BMV computer.
- Instruct the customer that the form must be signed (See detailed instructions in Completing the Voter Registration Form section below).
- Inform the customer that he or she will receive notice from the county board of elections concerning the status of the customer’s voter registration application. Also inform the customer that, if the notice is not received in a timely manner, the customer should contact the board of elections of the county in which the customer resides.
- Offer to accept the customer’s completed and signed form for transmittal to the board of elections.

**Completing the Voter Registration Form**

VEHICLE REGISTRATION TRANSACTIONS

Customers processing a change of address during a vehicle registration transaction must be asked if they wish to have that change also apply for voting purposes.
PROCESSING COMPLETED VOTER REGISTRATION FORMS

When a voter registration form is returned, the deputy registrar or employee of the deputy registrar’s office places it with all other voter registration forms that are to be transmitted to the board of elections in the county in which the deputy registrar’s office is located within five (5) days after accepting the form. (R.C. 3503.11)

The office manager should process registration forms as follows:

1. Date stamp each voter registration form that is not a computer-generated BMV form.
   - The date stamp shall not identify the deputy registrar’s location.
   - The date stamp shall be placed in a blank space on the form so that it does not interfere with reading the information on the form or scanning of the signature.
   - If no date stamp is available, the date may be written on the form.

2. Not later than five (5) days after receipt, batch together all the voter registration forms with a properly completed voter registration transmittal form (Exhibit B):
   - Insert the total number of voter registration forms received at the deputy registrar’s office on the appropriate line of the transmittal form.
   - Fill out the remaining information on the transmittal form (e.g., office name and number, address, date, name of person completing the form, and phone number).
   - Attach a list of printed names by registration/update type (i.e., new, name change, address change, name and address change).
3. Deliver in person or mail the packet containing the transmittal form, list of names and the voter registration forms to the board of elections in the county in which the agency is located. The method of transmittal must be mutually agreed upon by the agency site and the board of elections.

Note: Establishing a regular routine of delivering or mailing the forms to the board of elections on a given day of a week helps to provide consistency of delivery to meet the five-day submission requirement.

- Every voter registration form must be transmitted to the board within five (5) days after the deputy registrar’s office receives it.
- If a deputy registrar or employee of a deputy registrar’s office has any question as to whether a voter registration form is completed properly, the voter registration form must be submitted to the board of elections, as in the case of any completed voter registration form. The board of elections will determine the validity of the application and, if necessary, contact the person named in the registration form for any additional information. No deputy registrar, office manager, or employee shall destroy any voter registration form entrusted to that deputy registrar’s office.
